

Downloading Java JDK and Integrated Development Environments

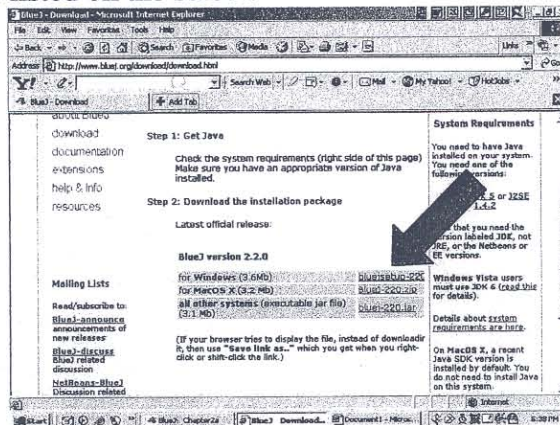

Download Java JDK version 6.

1. Go to www.sun.com/download
2. Across the top of the screen (on blue bar) are options. Move your mouse over **Downloads**
3. Select **Java SE**
4. Click on **Download** to the right of **JDK 6 Update 3**
5. Follow instructions to download the JDK for your system.

NOTE: Be sure to download the Java JDK before downloading the following IDEs.

To download BlueJ

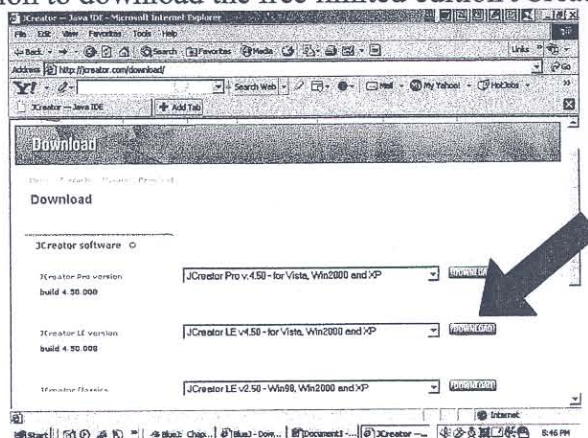

1. Go to <http://www.bluej.org/download/download.html>
2. Follow the steps listed on the screen

3. Scroll down to see additional instructions on the web site.

To download JCreator

1. Go to <http://jcreator.com/download>
2. Click on the option to download the free limited edition JCreator LE version

3. Follow directions on screen.
